

HARIHARAN BASKAR

Pipeline Operations Engineer | SCADA & PLC | Mechanical Engineering

Dharmapuri, Tamil Nadu, India | +91 99527 56619 | haaruthhari@gmail.com | hariharan.baskarr@outlook.com

[linkedin.com/in/hariharan-b-6b710b1a1](https://www.linkedin.com/in/hariharan-b-6b710b1a1)

PROFESSIONAL SUMMARY

Pipeline Operations Engineer with 3+ years of experience in multi-product pipeline operations, control room monitoring, and field maintenance at Hindustan Petroleum Corporation Limited (HPCL – VDPL). Skilled in SCADA and PLC-based real-time monitoring, pigging operations, cathodic protection, and process safety within 24x7 shift environments. Strong record of coordinating safe startup/shutdown, maintenance planning, and safety compliance across upstream and downstream stations. Open to opportunities across mechanical engineering more broadly — control room, field operations, maintenance, design, or manufacturing — with a strong drive to learn new systems and industries.

KEY HIGHLIGHTS

- 3+ years of hands-on experience across control room, field, and maintenance functions on a live multi-product petroleum pipeline (HPCL – VDPL).
- Regularly coordinate with upstream and downstream pipeline stations to plan and execute safe startup/shutdown sequences.
- Combine engineering education (M.Tech – Energy Technology) with field operations experience in oil & gas pipeline systems.
- Open to work: actively seeking roles across all areas of mechanical engineering, not limited to pipeline operations.

CORE COMPETENCIES

Pipeline Operations | Oil & Gas Operations | SCADA Systems | PLC Operations | Control Room Operations | Multi-Product Pipeline Handling | Pumping & Storage Operations | PIDS | Leak Detection | Pigging Operations | Cathodic Protection | Preventive & Breakdown Maintenance | Emergency Response | Process Safety | Work Permit Systems | Inspection & Reporting

PROFESSIONAL EXPERIENCE

Engineer (Contract), Deputed to HPCL — VDPL Pipeline

Feb 2025 – Present

SINCLUS Engineering (Mar 2026 – Present) · Aarvi Encon Limited (Feb 2025 – Feb 2026) · Dharmapuri, Tamil Nadu

- Monitor oil movement, pumping, storage, and pipeline integrity in real time using SCADA and PLC-based control systems.
- Manage control room operations including alarm handling, abnormal condition response, and shift-to-shift coordination in a 24x7 environment.
- Execute pigging operations, including pig launching, receiving, line preparation, and continuous monitoring, to maintain pipeline flow assurance.
- Perform maintenance on pumps, valves, pig barrels, basket filters, and SV stations, supporting reduced unplanned downtime through preventive upkeep.
- Monitor and maintain cathodic protection systems to prevent corrosion on underground pipeline assets.
- Carry out fire hydrant system checks, piping work, and mechanical installations in line with safety standards.
- Prepare maintenance schedules, inspection reports, and operational documentation to support audit readiness.
- Conduct toolbox talks, issue work permits, and lead mock drills as part of internal safety audit participation.
- Coordinate with upstream and downstream stations to ensure safe pipeline startup and shutdown.
- Perform regular Right of Use (ROU) inspections to identify encroachment risks and maintain pipeline safety.

Supervisor

Jul 2023 – Jan 2025

TNRTP Marutham Farmer Producer Company Limited · Coimbatore, Tamil Nadu

- Supervised daily operations and coordinated staff activities for the farmer producer company prior to transitioning into pipeline operations.

EDUCATION

M.Tech, Energy Technology — Periyar University 2022 – 2024
Score: 76%

B.E, Mechanical Engineering — Government College of Engineering, Dharmapuri 2019 – 2022
CGPA: 8.2

Diploma, Mechanical Engineering — Muthayammal Polytechnic College 2016 – 2019
Score: 90.25%

PROJECTS

- Experimental Evaluation & Numerical Analysis of Floating Photovoltaic Thermal (FPVT) System Performance — M.Tech project
- Solar-Powered Peltier-Based Fully Automatic Egg Incubator — B.E. project
- Fabrication of Two-Stroke Petrol Engine with Double Spark — Diploma project

TECHNICAL TOOLS

SCADA (Operations) | PLC (Operational Level) | AutoCAD | Creo | ANSYS | MS Office | STS | PIDS

LANGUAGES

Tamil (Native) | English (Read, Write, Speak)

TRAININGS & SAFETY PRACTICES

Work Permit System (PTW) Issuance | Toolbox Talks & Mock Drill Facilitation | Internal Safety Audit Participation | Hazard Identification & Risk Assessment (HIRA) Awareness
